BACKGROUND

Royal Heritage Health foundation (RHHF) is a non-Governmental and not for profit Organization committed to creating a society where the poor and vulnerable have equal access to quality education, health, infrastructure and dignity of human person. RHHF is one of United Nations Population Fund (UNFPA) Implementing Partners (IPs) in executing projects in different parts of the country.

To support the scale-up and continuity of Sexual and Reproductive Health (SRH) and Gender-Based Violence (GBV) emergency response services across Benue, Borno, Adamawa, and Yobe States, the procurement of essential items and services has become critically necessary. Key activities being implemented include the production and distribution of dignity kits, the operation of mobile health facilities and Safe Spaces, community mobilization, and the delivery of integrated SRH/GBV services through One-Stop Centres, Integrated Health Facilities, and Women and Girls Safe Spaces.

In line with these interventions, the procurement of **dignity kits** is essential for maintaining hygiene and restoring dignity for women and girls, particularly GBV survivors. **Logistics services** are required to facilitate the transport of supplies, outreach personnel, and medical commodities to often remote and hard-to-reach communities.

To enhance awareness and service uptake, **IEC materials and data collection tools** will be printed and distributed to support community education, behavior change communication, and effective monitoring. The provision of **drugs and medical consumables** is also vital for timely treatment of survivors and SRH service users at various health delivery points.

Additional needs include **feeding and hospitality** for community engagement sessions, especially in youth-friendly and vulnerable settings, as well as **fuel (petrol)** for generators due to unstable electricity supply in intervention areas. A **warehouse rental** is required for safe storage of supplies, ensuring proper inventory management and timely distribution.

Finally, the **toll-free helpline subscription and maintenance** remain a key channel for survivors to confidentially access psychosocial support and referrals. The continuity of this service is critical to the overall GBV response framework.

Overall, the listed procurement items are directly aligned with ongoing project activities and will significantly enhance the quality, reach, and sustainability of SRH/GBV services being delivered in these conflict-affected and underserved regions.

In view of the above justification, RHHF is to engage a vendor(s) who will facilitate the packaging bags needed to assemble 8,000 locally packaged dignity kits likewise IPC Sheets and Data Collection tools.
